Cost-Saving Programs

ENERGY ALLIANCE...

REDUCE ELECTRIC AND NATURAL GAS COSTS

Cutting your energy costs is easy. Just sign up for our Energy Alliance program!

NYSRS's Energy Alliance has competitively procured suppliers for electricity and natural gas in utility territories throughout New York State. Because of the strength of our buying group, our suppliers are offering the most competitive pricing available. Even if you are already with an energy supplier, check out our pricing for your next contract.

We all know that restaurants have unique and serious energy cost requirements. We not only want the best rates available in the market, but we also want stabilized pricing whenever possible to minimize unpredictable price swings.

Finally...participating in our Energy Alliance program can reduce your taxes as well.

Put it all together and NYSRA members stand to save significantly on their operating costs!

CONTACT

To find out how the Energy Alliance will benefit your business, call 1-800-442-5959. Once we receive your request, we will send you a no-obligation Participation Authorization form.
